SUITABLE FOR:

The packaging concept with CPET trays can be used extremely widely, for both hot and cold products.

The trays are temperature resistant from -40 to $+220^{\circ}\text{C}$, unbreakable, grease resistant, cut resistant, gas tight and suitable for use in convection ovens and microwave ovens. From the freezer compartment straight into the oven.

Quality dual ovenable paperboard trays.

Our pressed board trays can now be found in industries such as bakery, airline catering, retail, and foodservice.

Our customers are committed to finding more sustainable solutions to meet the expectations of consumers, but also to do their part to help create a better world, for many this means switching to board packaging to lower the climate impact.

Our board trays offer up to 90% reduction in single use plastics – something worth thinking about.
